Mr. Clair Shaw

Re Ogden River

On the 15th of July I had the opportunity of going through your Irrigation system, we discussed some of the problems and possible solution.

You asked about changing the point of diversion on the Liberty, and I suggest that application be made with the State Engineer. Also I suggest that you cooperate with water users of the Liberty Irrigation Co. Try to make them understand and be aware of what you are trying to accomplish.

In a pryor telephone conversation as well as on this meeting I suggested that a head gate and measuring device (cippolletti or parshall) be installed at the head of your ditch.

Yours truly

Boyd W. Heslop

Boyd W. Heslop
Ogden River Water Commissioner
